

FAUNSDALE RALLY

Me, Brenda and Gizmo were setting in camp having one of our favorite beverages watching the constant parade of bikes pass by when, David pulls up, riding on of all things a 50cc motor scooter.

He came over to talk and to let us know that, we had 6 days to get him this write up. He would do the pictures and have all the fun, But we had to tell everyone what went on.

Now let me tell you about the fall Faunsdale Bike Rally. WOW!!! If you have never been to a Faunsdale Rally you owe it to yourself to go. This has to be one of the best organized rally's in the state. The people who put this rally on make it look so easy, the shower lines are short, roads were clean, the port johns was cleaned two times a day and traffic continues to move with very few jams. Security is very helpful and seems to be every where when needed. The Ice truck came by every 30 minutes or so and prices where kept low.

They have just about every kind of vendors you can think of. People began arriving days before the events to insure a good camping spot. To me all the spots were great. Although the crowd was very large everyone had a lot of room to camp.

We talked to people from California, Texas, Louisiana, Mississippi, Tenn., Florida, Georgia and of course Alabama. The word about this Rally is really getting out there.

Friday night DJ Nancy kept the crowd stirred up with some great music. While others was checking out the vendors and great food. Some was going from camp to camp making new friends and visiting with old ones.

Sat. started with a poker run which had a large number of riders. There was a lot of entertaining field events held through out the day with several participants doing buy back for a second chance.

The bike show had some great looking bikes and the crowd enjoyed checking them out.

As the sun set everyone was getting ready to party with the band Haywire who got the crowd moving and warmed up for the wet T Shirt contest, What a wet T shirt contest it was. After all this, came the event that Faunsdale is famous for(The midnight Breezy Ride) Folks got out their Flood lights and lit the areas up and lined the roads with cameras in hand.

This years event has to be one of the largest fall events they have had. The weather and the grounds where absolute perfect for the entire weekend. The rally was competing with Alabama football and Talladega race weekend But still the crowd came to have fun and party hard.

If you didn't make this rally, plan to attend the Spring Rally you will be glad you did.

See ya on the Road
George, Brenda and Gizmo
