

HAVING FUN WITHOUT BREAKING THE BANK

Today with the high price gas not many are traveling far from home. A group of Bikers from the Cherokee County Area decided they where not going to let this slow them down. They all got together and planned their rides. This would take up all the weekends for the coming month.

They started out with a ride to Panama City to attend the Thunder Beach Rally. Most of them rode their bikes. A couple pulled trailer in case it was needed. One couple, Kim and Jackie even used this trip for there honeymoon destination (we all had fun on their honeymoon).

After Thunder Beach everyone decided a short ride would be next. We had been hearing about a wildlife Sanctuary called TIGERS AND MORE close to Collinsville, Ala. We rode over and spent the day admiring all the lions and tigers. If you have never been there do yourself a favor ride through the back roads and make it your destination you will be amazed at what these people are doing for the beautiful animals.

The next weekend we loaded our Bikes with everything we would need for a four day ride through the amazing Smokey Mountains. We spent the weekend riding through some of the most beautiful roads any one could every dream of.

We didn't stay on the beach in a fancy hotel nor, did we stay in a beautiful chalet on top of a mountain. Where we did stay was in a nice clean motel a little off the beatin path. We spent an average of \$50.00 per day thanks to Teresa for our rooms (John was so impressed with the price of the motel he gave a donation of \$275.00 to the police department in Panama City while riding his hot new custom chopper.) Most of the motorcycles average 50 miles per gallons.(Except Brenda she has to take so many clothes hers averaged only 35 mpg)

As you can see you can still travel with a group of friends and not have to spend your children's inherence. So get out there ride those Bikes and quit bitching about how much everything cost.

See Ya on the Road
George, Brenda and Gizmo

Be safe out there, the life you save may be your own!
